or any portion of said ways and will authorize the Board of Selectmen to acquire by gift or purchase or take by right of eminent domain in fee or otherwise for all purposes of a public street and highway in and over each of said streets as so laid out and accepted, and to see what sum of money the Town will vote to raise and appropriate for the working of each of the above named streets including the acquisition of the fee above referred to and for the building of any bridges, drains and conduits or securing easements which may be necessary in connection therewith and to see whether the Town will authorize the Board of Selectmen to accept deeds of any reservation strips existing in connection with any of said streets, or take any other action in relation thereto.

ARTICLE 8. (By Direction of Selectmen). To see what sum of money the Town will vote to raise and appropriate to reconstruct, resurface, widen, straighten, relocate or work the following streets, provided the state or

County or both will appropriate a sum of money to help defray the expenses of such work, to wit:

West Street

Washington Street from Washington Square to a point to meet the State Highway beyond Lincoln Square

or any portion of said ways and will authorize the Board of Selectmen to acquire by gift or purchase or take by right of eminent domain in fee or otherwise for all purposes of a public street and highway in and over each of said streets, and to see what sum of money the Town will vote to raise and appropriate for the working of each of the above named streets, including the acquisition of the fee above referred to and for the building of any bridges, drains and conduits or securing easements which may be necessary in connection therewith, and to see whether the Town will authorize the Board of Selectmen to accept deeds of any reservation strips existing in connection with any of said streets, or take any other action in relation thereto.

ARTICLE 9. (By Direction of Selectmen). To see what sum of money the Town will vote to raise and appropriate for resurfacing, repairing or reconstruction by the Street Department or under the provisions of General Laws (Ter. Ed.) Chapter 90, for maintaining, repairing and improving the following streets or any portion thereof:

Broad Street from Madison Street to Middle Street

or if deemed advisable by the Massachusetts Department of Public Works, any other street in the Town, or take any other action in relation thereto.

ARTICLE 10. (By Direction of Selectmen). To see what sum of money the Town will vote to raise and appropriate to reconstruct, resurface, widen, straighten, relocate or work that portion of Commercial Street between Church Street and No. 695 Commercial Street, or take any other action in relation thereto.

ARTICLE 11. (By Direction of Selectmen). To see what sum of money the Town will vote to raise and appropriate to straighten, relocate reconstruct and widen Pleasant Street from 1393 Pleasant Street to the junction of Water and Pleasant Streets, or take any other action in relation thereto.

ARTICLE 12. (By Direction of Selectmen). To see what sum of money the Town will vote to raise and appropriate for the reconstruction of Clapp Avenue, or take any other action in relation thereto.

ARTICLE 13. (On Petition of Frank L. Bicknell and Others). To see if the Town will vote to raise and appropriate a sufficient sum of money for the purpose of relocating, constructing, draining, surfacing and widening or otherwise improving a way from approximately 193 Broad Street to King Avenue, known as "an extension of King Avenue to Broad Street" as laid out and accepted by the Town Meeting of the year 1890, or thereafter, and to accept any deeds or easements necessary thereto, or take any other action in relation thereto.

ARTICLE 14. (By Direction of Selectmen). To see if the Town will vote to accept by gift from George Puopolo land adjacent to his building at the corner of Broad and Middle Streets for street purposes as follows: On Middle Street, a strip approximately 10 feet wide and 93 feet long, and on Broad Street, a strip approximately 10 feet wide and 125 feet long, or take any other action in relation thereto.

ARTICLE 15. (By Direction of Selectmen). To see if the Town will vote to raise and appropriate the sum of $30,000. for the construction of

sea walls in the vicinity of Ocean Avenue and to riprap the wall on Fore River Avenue, or take any other action in relation thereto.

ARTICLE 16. (On Petition of Roy H. Richards, and Others). To see if the Town will vote to raise and appropriate a sum of money for the construction of a permanent sidewalk and curbing along the north side of Chard Street and continuing north on Middle Street to the concrete sidewalk in front of No. 66 Middle Street, or take any other action in relation thereto.

ARTICLE 17. (By Direction of Selectmen). To see what sum of money the Town will vote to raise and appropriate for the construction of curbing and sidewalks, or take any other action in relation thereto.

DRAINAGE

ARTICLE 18. (By Direction of Selectmen). To see what sum of money the Town will vote to raise and appropriate for drainage on Summer Street, from No. 437 to Belmont Street, or take any other action in relation thereto.

ARTICLE 19. (At Request of Street Department). To see what sum of money the Town will vote to raise and appropriate for the construction of drainage on Front Street from No. 175 to No. 267, or take any other action in relation thereto.

ARTICLE 20. (By Direction of Selectmen). To see what sum of money the Town will vote to raise and appropriate to drain the land on the easterly side of Essex Street, from Middle Street to Fore River, or take any other action in relation thereto.

ADJOURNED ANNUAL TOWN MEETING

March 9, 1949

The Adjourned Annual Town Meeting was called to order at 8:47 o'clock by Mr. Daniel L. O'Donnell, Annual Moderator.

There were 162 Town Meeting Members present.

Prayer was offered by Rev. Ernest D. Sillers, Holy Trinity Episcopal Church, South Weymouth.

MR. DIZER MOVED FOR RECONSIDERATION OF ARTICLE 1.
SO VOTED.

MR. LANE FOR THE APPROPRIATION COMMITTEE OFFERED THE FOLLOWING MOTION:

That the sum of $18,927.48 be raised and appropriated to provide an increase in compensation not exceeding $300.00 for certain employees of the Town whose pay was not so increased by the meeting.

Such sum to be allocated as follows:

Item 2	For the Selectmens' Department	$ 300.00
Item 3	For the Town Accountant's Department	327.00
Item 4	For the Town Treasurer's Department	900.00

SO VOTED.

ARTICLE 2. Mr. Gunn offered a further report on the Committee for Memorial to World War II Veterans.

MR. LANE MOVED (with Mr. Gunn's consent) TO TAKE UP ARTICLE 49 AT THIS TIME.

SO VOTED.

Mr. Gunn submitted the following report of the Committee:

REPORT OF COMMITTEE ON MEMORIAL FOR WORLD WAR II VETERANS — FOR TOWN MEETING OF MARCH, 1949 PROPOSED MEMORIAL FOR THE WEYMOUTH WORLD WAR II VETERANS

While this project started out as a simple memorial to the veterans of the last war, the size of the memorial roster was so extensive due to the large number of veterans involved that it required the construction of a building, because there was no public building in the Town of Weymouth large enough to house it. The additional responsibility put upon this committee of combining in the memorial project a building sufficiently large to provide quarters for all of the veterans' organizations in town extended the original plans tremendously, both in the size of the building and its resulting cost of construction. The selection of an auditorium building was a natural development in working out a joint solution to these two needs, particularly because for many years now the people of the town have lacked an auditorium of sufficient size to accommodate large gatherings. The present proposal, therefore, makes provision for all of these things.

The memorial roster will be mounted in the lobby of the auditorium. The auditorium provides a seating capacity for one thousand twenty people, or seven hundred sixty people seated at a banquet, and every modern convenience has been worked into it to accommodate the servicing of affairs involving such sized assemblies. These two parts of the building will be on the ground floor, and due to the topography of the land of the chosen site, it makes it possible to provide adequate quarters for the veterans' organizations in the basement, a large part of which will be above grade. This of itself is quite an accomplishment, because there are nine different organizations, each one of which wants a separate headquarters or room and ample meeting space for their periodic meetings. The proposed building provides ten staff rooms as headquarters, two meeting halls of sufficient size to accommodate the ordinary business meeting, a recreation room, and a vault wherein each organization may have its own separate file. The arrangements for the veterans' organizations were carried out by the architect in the proposed building in accordance with their own specifications. The over-all plan, therefore, quite completely solves the three different needs in the one building.

The choice of a site was thoroughly canvassed over a considerable period of time. It was determined that there were two requirements for the building visualized, namely that it should be centrally located, and that it be in a prominent position so that it might be seen and utilized to its greatest benefit. It was the committee's judgment that the site selected did this better than any other available site, namely at the corner of Washington Street (Route 3) and Middle Street. This is the old Town House site, occupied for the last fifteen years by the School Department for portable primary school buildings. It has been found possible to make other arrangements to take care of the School Department's need of this location if the town decides to use it for the War Memorial Auditorium Building.

It is estimated that the over-all cost of this project will be $425,000, which at first consideration seems to be a large amount of money, but when it is considered that it is going to have continuous, everyday use

over a period of probably fifty to one hundred years and that it will serve every part of the populace at some time or other, the amount of cost is not unreasonable. If the plans of the committee are followed, the cost of this construction will be carried by the town over a long period of time by being financed by twenty-year bonds for the limit allowed by law, and the annual effect on the tax rate would be approximately fifty cents per $1000 of assessed valuation a year, and would have the advantage to the people of the town of use of the property while they are paying for it.

The committee in no way assumes responsibility for putting upon the town the expense or cost of this construction. They were appointed to the task without solicitation by themselves. No one on the committee was in any way connected with the proposals. The problems they were asked to solve by making a definite recommendation to the Town Meeting and the townspeople were problems that arose from the needs and desires of the people themselves. The problems and the suggestion for the solution are nothing new. For many years the Town of Weymouth has needed an auditorium of the size and type proposed, and the demand for veterans' quarters have been constant ever since World War I.

The committee's work has been over a three-year period, and they have reported progressively on it each year of that time to the Town Meeting, and each year they were authorized to proceed with the developing plans, and they feel now that insofar as the financial situation of the town is concerned, they have obtained the best result possible, and that the present time is the best time to carry out this project. Insofar as the Memorial to the World War II Veterans is concerned, it is their conviction that it will be done either now or never.

Reported by and signed for the committee by
FRANCIS A. GUNN, Chairman

COMMITTEE FOR MEMORIAL FOR WORLD WAR II VETERANS

MR. GUNN OFFERED THE FOLLOWING MOTION:

That the sum of $25,000 be raised from the tax levy of the current year and be appropriated and the additional sum of $400,000 be appropriated and both such sums shall be used for the construction of a Memorial Building as recommended in the report of the "Committee for a Memorial to the World War II Veterans" and that the Treasurer, with the approval of the Board of Selectmen, be and is hereby authorized to borrow the said sum of $400,000 and to issue bonds or notes bearing on the face the words "Town of Weymouth War Memorial Loan 1949" and to be payable in accordance with Section 19 of Chapter 44 of the General Laws, so that the whole loan shall be paid in not more than twenty years from the date of the issue of the first bond or note, or such earlier date as the Treasurer or Board of Selectmen may determine.

Followed an involved, prolonged and controversial discussion with strong appeals for and against the project as to the site chosen, the cost involved and the design.

MR. LANE MOVED THAT

The present Committte be instructed to continue the study or the Moderator be empowered to appoint a new Committee to report to a future Town Meeting.

The noes have it and the motion
LOST

MR. GUNN OFFERED THE FOLLOWING AMENDMENT TO HIS MOTION:

That the words "except site" be inserted after the phrase "Committee for a Memorial to the World War II Veterans".

Comes now the question on Mr. Gunn's motion, as amended. The vote being doubted the tellers took the count and reported

Ayes	22
Nays	103

and the motion is
LOST.

Followed further discussions and Mr. Cunniff moved the following substitute motion:

That a new Committee of 7 be appointed by the Moderator to continue this study; said committee to be composed of 4 veterans and 3 non veteran civilians, and to report to the next Annual Town Meeting. Mr. Cunniff asked unanimous consent to withdraw his motion.
SO VOTED.

MR. LANE FOR MR. McMILLAN OFFERED THE FOLLOWING MOTION:

That the Committee on Memorial for World War II Veterans be prevailed upon to continue and any vacancies on said Committee to be appointed by the Moderator.
SO VOTED.

The meeting was unanimous in its appreciation of the Committee's very fine work and the Chair thanked Mr. Gunn and expressed the sincere hope he would "talk it over" and continue.

MOVED:

Provided further that the final naming of those streets when accepted must meet with the approval of the Planning Board, and the work on these streets shall be performed under the direction of the Superintendent of Streets. $4,460.00

MR. FORTIER MOVED AN AMENDMENT AS FOLLOWS:

That none of the streets mentioned in the motion of the Appropriation Committee be completed until Greenwood Avenue is completed as provided in the adjourned Town Meeting of March 3, 1948.

Discussion followed. The Chair stated it is authorized by the Superintendent of Streets to the effect that all streets accepted in 1948 will have preference. Mr. Fortier's motion is thus amended:

That, upon authorization of the Superintendent of Streets, all uncompleted streets accepted by the Board of Selectmen in 1948 will have preference over those accepted in 1949.

Comes now the question on the amendment to the Appropriation Committee's motion as thus amended.

SO VOTED.

WARRANT FOR SPECIAL TOWN MEETING

The Commonwealth of Massachusetts

Monday, April 25, 1949, 7:45 P.M.

NORFOLK, ss.

GREETING:—

In the name of the Commonwealth of Massachusetts you are hereby required to notify and warn the inhabitants of Weymouth aforesaid qualified to vote in Town Affairs to meet in the hall of the Weymouth High School on

MONDAY, THE TWENTY-FIFTH DAY OF APRIL, 1949

at seven o'clock and forty-five minutes in the evening, then and there to act upon the following articles, namely:—

ARTICLE 1. (At request of School Building Committee). To see what sum of money the Town will vote to raise by taxation or otherwise, and appropriate, for the purpose of preparing complete plans, working drawings, and detailed specifications, in order that bids for construction of a Junior High School may be secured by the Building Committee authorized under Article 1 of the Special Town Meeting held on June 28. 1948; or take any other action in relation thereto.

ARTICLE 2. (At request of School Committee). To see what sum of money the Town will vote to raise by taxation or otherwise, and appropriate, for the purpose of acquiring by gift, purchase, or eminent domain in fee, Lot 1 Block 493, Sheets 41 and 42, as appears in the Atlas of the Town of Weymouth for the year 1946, containing about 900,000 square feet, 20 acres, and including the buildings thereon, located at or near the junction of Park Avenue and Pleasant Streets, as the site for the erection of a Junior High School; and to authorize the Board of Selectmen to take said property by eminent domain for such school purposes; or take any other action in relation thereto.

ARTICLE 3. (At request of School Committee). To see what sum of money the Town will vote to raise by taxation or otherwise, and appropriate, for the purpose of acquiring by gift, purchase, or eminent domain, in fee, Lots 16, 17 and parts of Lots 15, and 20 in Block 100, Sheets 7 and 10, as appears in the Atlas of the Town of Weymouth for the year 1946, containing about 328,000 square feet, located north and east of Pearl Street, as the site for an elementary school; and to authorize the Board of Selectmen to take said properties by eminent domain for such purposes; or take any other action in relation thereto.

ARTICLE 4. (By direction of Board of Selectmen). To see if the Town will discontinue as a public way that portion of the present highway at the junction of Evans Street running northerly to Standish Street.

ARTICLE 5. (By direction of Board of Selectmen). To see if the Town will vote to raise by taxation or otherwise, and appropriate, the sum of $2,500.00 provided the Port of Boston Authority appropriates a like amount, for the removal of hulks on the Idlewell shore on the Weymouth Fore River or take any other action in relation thereto.

You are hereby required to notify and warn said inhabitants of Weymouth qualified to vote in Town Affairs, in case all the articles in the

foregoing warrant shall not be acted upon at the meeting called for the twenty-fifth day of April, to meet in adjourned session at the hall of the Weymouth High School on

WEDNESDAY, THE TWENTY-SEVENTH DAY OF APRIL, 1949

at seven o'clock and forty-five minutes in the evening, then and there to act upon such of the foregoing articles as shall not have been acted upon on April 25, 1949, or action upon which may at said meeting of April 25, 1949, have been deferred until said adjourned session.

You are directed to serve this Warrant by Posting a copy thereof, attested by you in writing, in each of two public places in voting precincts in said Town, seven days at least before the time for holding the first meeting called for in this warrant.

Hereof fail not, and make due return of this Warrant with your doings thereon to the Town Clerk of said Town on or before the eighteenth day of April, 1949.

Given under our hands at Weymouth this fourth day of April in the year of our Lord nineteen hundred and forty-nine.

RETURN OF SERVICE

Norfolk, ss.
Weymouth, April 15, A.D. 1949

Pursuant to the within Warrant I have this day notified and warned the inhabitants of Weymouth aforesaid to meet at the respective places and times as set forth in said Warrant, by posting true and attested copies of the same in two public places in each voting Precinct in said Town, seven days before the time of holding said meeting.

CLARENCE L. PRATT
Constable of Weymouth

Received in the office of the Town Clerk on April 15, 1949 at 10:50 a.m.

CHESTER L. BOYLE
Town Clerk

SPECIAL TOWN MEETING

April 25, 1949

Pursuant to a Warrant duly issued, a Special Town Meeting of the inhabitants of the Town of Weymouth, represented by its duly elected and qualified Town Meeting Members, was held in the hall of the Weymouth High School, East Weymouth, Monday, April 25, 1949.

The meeting was called to order at 7:50 o'clock in the evening by Mr. Daniel O'Donnell, Annual Moderator.

Town Clerk, Chester L. Boyle, read the call of the meeting.

MOVED:

To dispense with the reading of the Articles in the Warrant.

SO VOTED UNANIMOUSLY.

Prayer, ending with the mass recitation of the Lord's Prayer, was offered by the Rev. Father Cogavin, Assistant Pastor of the Immaculate Conception R. C. Church, East Weymouth.

The following tellers were appointed by the Chair and duly sworn:

1st. Div. Mr. Cowing
2nd. Div. Mr. Bond
3rd. Div. Mr. Howe

The tellers counted 146 Town Meeting Members as being present — later arrivals made a total of 176. Town Meeting Members not previously sworn were administered the oath by the Moderator.

MOVED:

ARTICLE 1. That the sum of $39,000.00 be raised and appropriated for the purpose of preparing plans, working drawings and detailed specifications for the construction of a Junior High School, provided that such work shall be completed under the direction of the Building Committee appointed under Article 1 of the Warrant for the Special Town Meeting held on June 28, 1948.

Mr. Sandy Roulston, representing the Special Committee appointed by the Annual Moderator in compliance with a vote of the Annual Town Meeting, to study the Weymouth School Building Program, presented the following majority report:

REPORT OF COMMITTEE ON WEYMOUTH'S SCHOOL EXPANSION PROGRAM

Mr. Moderator and Town Meeting Members: Pursuant to a vote of the Annual Town Meeting under Articles 35, 39 and 40, the Moderator appointed a committee of seven to study Weymouth's school expansion program.

The Committee fully cognizant of the magnitude of a school building program to serve the needs of Weymouth through the coming years and also the importance of selecting wisely an educational policy to follow for the best interest of our children, has given the subject its very best endeavor in the limited time available. Continued study of the subject makes it increasingly clear that an abnormal birth rate during the last few years has been quite general throughout the country; therefore, Weymouth's problem is very similar to that of other cities and towns differing only in degrees.

The Committee sought opinions from many superintendents of schools as to the relative value of the 8-4 and the 6-3-3 or Junior High systems and have replies from 28 cities and towns comparable to Weymouth — six of which are from towns now operating under the 8-4 system. One of the six, the City of Attleboro. favors the 8-4 plan but states that two elementary school buildings that have separate auditoriums and gymnasiums and a third elementary building with a combined auditorium and gymnasium have already been built and are all equipped with satisfactory

shop, home economics laboratories and health rooms, all of which is comparable to the requirements of the Junior High plan excepting only that no provision is made to segregate the adolescent age group, grades 7, 8 and 9, from the younger children or from the older pupils as is done in Junior High.

All other replies favored the Junior High and placed particular stress on the importance of setting apart the children of the aforementioned grades and providing for them a broader scope of activity than is usual under the 8-4 system including shop training, home economics, science, art, music and physical education under trained people.

All ideas advanced appear to set aside the concept that adequate formal schooling can be accomplished through textbook approach alone.

The Committee held a conference with John Marshall, Administrator for Massachusetts School Building Assistance Commission with a view of learning what State requirements Weymouth would have to comply with to become eligible for State funds in connection with our proposed school buildings.

The Commission has set up but few hard and fast rules; however, the Committee gained the impression that ample grounds for recreational use must be available and that the general building plans must have the approval of the School Committee in order to satisfy the Commission.

With a view of obtaining an overall picture of our school buildings and their adaptability for expansion. the Committee visited all of the schools and noted their location, physical condition and yard space available. All buildings were found to be in excellent condition both inside and out.

The Committee is in accord with the School Committee's statement that 54 class rooms and several general purpose rooms must be available by 1953.

The Committee studied an alternate plan for providing this space by the building of a new school for Union Street area, one for the Homestead Avenue area and additions to the Bicknell, Humphrey, Hunt, Nevins, and Pond Schools and added rooms to the Abigail Adams and Pratt schools over the number already contracted for.

The committee finally discarded this plan as not being feasible for several reasons; the savings, if any, would be but little because some of the buildings would not be well adapted for additions, some would require an all-purpose room, shop and home economic rooms in addition to class rooms needed and all, no doubt, would need extensive additions to or the complete replacement of heating plants. In several instances more class rooms would be available than the immediate area required — thus adding to our transportation problem. The Committee also points out that as enrollments in a school increase, the playground area for the children decreases by the same percentage. The Committee has learned that modern thinking by educators place high on the list the importance of providing ample playground space for the children.

Contracts have already been let for a six room addition to the Abigail Adams School and four rooms onto the Pratt School. The Committee believe that our wooden school buildings may well be continued for a few years until the urgent demand for more class rooms has become somewhat abated. These schools should then be replaced by modern buildings and located in the near vicinity wherever suitable and ample area is available.

The Committee approves the recommended four rooms addition to the Humphrey School and believe that the Bicknell, Hunt, Nevins and Pond school buildings are reasonably well suited for minor additions in the future when and if required for additional enrollment in their respective areas.

The Committee in its deliberations held seven meetings including a public hearing at which there were about 60 persons present. By a show of hands vote, 40 favored a 6-3-3 system for our schools, with no one voting in opposition.

In arriving at a final decision the Committee took into consideration numerous studies and reports on the subject, opinions from those within and outside of the school system and particularly the opinions given by superintendents of schools who may be classified not only as educators but as experts in that field.

The opinion given by Charles R. Thibodeau of Belmont seems to be of particular importance. Mr. Thibodeau served as superintendent of schools in Weymouth for five years thereby gaining a knowledge of our school buildings and of our geographical problem. He is considered an able educator and with first hand knowledge of our local setup his opinion is worthy of careful consideration.

The Committee concede that the cost of providing and operating Junior Highs would be slightly greater than that required for elementary schools — but are convinced that the additional activities entered into would constitute a forward step in education and would be well worth the added cost.

The Committee believe that when and if a Junior high school is built in South Weymouth, that the Building Committee appointed under Article 1 of a special town meeting on June 28, 1948 should be permitted to determine the type and general layout of the building and should not be hampered in their deliberations by a future vote of the Town which might tend to restrict their freedom of action.

The Committee finally moved and voted: That the Committee endorse the incorporating of Junior highs into Weymouth's school system and approve the school committee's proposed building program and further recommend to the Town meeting members that they support the recommendations of the Appropriation Committee on Articles 35, 39 and 40 of the Annual Town Meeting, March 7th, 1949.

SANDY ROULSTON

Mr. Roulston amplified the Committee's report with further remarks on the school building program.

Mr. Philip T. Jones for the majority in Committee offered the following report:

MINORITY REPORT OF COMMITTEE STUDYING THE WEYMOUTH SCHOOL BUILDING PROGRAM

Several metings of this Committee were held at which the pros and cons of the 6-3-3 system as related to Weymouth were discussed. Various members have contacted persons presently employed in the various edu-

cational systems of the Commonwealth concerning their opinions as to the relative merits of the present type of school organization and the so-called 6-3-3 type of organization. Many educational articles on the subject were studied.

On Saturday, April 2, 1949, the Committee spent several hours visiting the various school buildings in the town for the purpose of ascertaining their size, condition and adaptability for any additions that might become necessary.

On Monday, April 11, 1949, the Committee conferred with Mr. John Marshall, Commissioner in charge of the state school building assistance program, at his office at 88 Broad Street, Boston. We were informed that there were no set rules laid down by the commission as the basis for granting state aid.

A public hearing was held in the council chamber at the Town Hall on Monday evening, April 11, 1949.

On Wednesday, April 13, 1949, the Committee by a vote of 4 to 3 decided to favor the school committee plan for the institution of the so-called 6-3-3 system in Weymouth. Subsequently, on the same evening the entire committee appeared before the Appropriation Committee and each member expressed his views on the subject.

We, the minority members, wish to express our appreciation of the work done by each member of this Committee and by the Committees as a whole. We congratulate Mr. Roulston for the able and impartial manner in which he presided at the meetings. We thank Mrs. Coleman for her work as our able secretary.

The result of the vote of the Committee on such a serious and far reaching subject impels the minority to state their reasons for not joining in the majority report.

We are of the opinion that there is no dominant type of school organization which is the panacea of all educational ills. We feel that the Weymouth schools, as presently constituted, are performing an excellent educational service to the community. They are rated equally well with the various other school systems in the Commonwealth. While there may be need for improvements and changes in certain instances, these can well be made without disrupting the whole system by changing to a new one at a great additional expense to the Town.

We are not unmindful of the excerpts from the letters written to Mr. Roulston and Mr. Lane by 24 superintendents of schools. It is to be expected that a superintendent of schools would choose the 6-3-3 system if all other things were equal because it increases his supervisory staff and decreases his administrative responsibility. Especially is this true in a town which is so situated that one Central Junior High School would suffice. However, Weymouth with its four separate and distinct geographical centers presents quite a different problem.

We choose to take the advice of classroom teachers actually engaged either in teaching pupils in these Junior high schools or engaged in teaching in high schools. After all, the purpose of the first eight grades is to prepare the pupils for high school. The purpose of the high school is to prepare most of the pupils for life occupations. Classroom teachers as a whole who have worked under both types of systems seem to favor the 4 year high school by a large majority. They and not superintendents come in daily contact with these problems. However, we also note in passing that

practically none of "the excerpts" stated flatly that the 6-3-3 system was superior in every respect; and most of them failed to mention the increased cost.

One of the most popular arguments in favor of the Junior High School organization is that through departmentalization of teaching, the 7th and 8th grades find the change to senior high school less abrupt. While we do not agree that departmentalization is more effective for pupils in the 7th and 8th grades, it must be pointed out that in our present system in Weymouth, departmentalization is in effect in all but one or two schools. Comparison of the results attained by pupils in the two systems in Weymouth does not show any difference; — in other words the scholarship is the same. However, it appears that departmentalization will continue in Weymouth with or without the 6-3-3 system.

An examination of the opinions of various educators contained in the School Executive Magazine for October, 1948, leads to the conclusion that each type of organization has its advantages and its disadvantages. All admit, however, that the 6-3-3 system is usually more expensive to operate. Mr. A. Russell Mack, Supervisor of Secondary Education for Massachusetts, stated to two members of this Committee that although he leans towards the 6-3-3 system, if he were a superintendent he would not change from an 8-4 system which was functioning effectively to a 6-3-3 system.

Dr. Philip Cox, retired professor of Columbia University, an educator who originally pioneered for the 6-3-3 or Junior High School system, in a recent interview, stated that he conceded that some of the basic reasons for the 6-3-3 system have now disappeared. When the movement started, too few children completed elementary school, and it was the hope of educators to work out a junior high system to keep children in school during that period, while at the same time reorganizing the school curriculum to attempt to give a somewhat rounded basic education to those boys and girls who would complete their schooling in junior high. He admitted when the 6-3-3 movement started, there was no foresight into the expenditures for junior high gymnasium and other facilities. The cost of the system has been terrific, to the taxpayers, he observed.

It sould also be noted that the Research Bulletin of the National Education Association for February, 1949 contains the following: "As one notes the relatively slight increase in the number of junior high schools between 1938 and 1948 in city systems the question arises as to why this is so. Has the movement merely reached its proper zenith? Has the junior high school plan failed to measure up to expectations? Has it been blindly adopted and misused to such an extent that its alleged values may soon be lost?

"Whatever divisions or units make up the organization framework of a given school system, and irrespective of the grades that are grouped together in the various units, the dividing lines should be fixed in terms of pupil need rather than because of tradition or change-for-the-sake-of-change. Even on the basis of practice no single pattern is clearly dominant."

There can be no dispute but that the change to the 6-3-3 system as contemplated by the school committee, will be more expensive in its inception. That is, the cost of building new junior high schools plus the necessary additions to present buildings, plus the building of new elementary schools will be much greater than the cost of adding to our present buildings plus the building of new elementary schools.

Since the proposed new Junior High School building also provides for greater areas for special subjects, more cost is entailed both for teaching

and supervision. We feel that the present manual training and sewing programs should be improved and continued. However, we feel that any further extension of industrial and practical arts programs should be on the high school level rather than in the junior high school. If done on the high school level, much duplication of building, equipment, and teaching and administrative expense can be eliminated and better results attained for the pupils. Such a development in the high school will eventually become necessary under the proposed state plan for grading high schools, thus making an increased program in the junior high schools repetitious and expensive.

As in building one's own home, one may spend as much or as little as is deemed necessary, having in mind the necessities of the situation and the money available to pay the bills. Like mansions, the ideal school building from an educator's viewpoint is expensive to build, expensive to maintain and expensive to operate.

If it were necessary to provide only junior high schools at this time, the problem might be somewhat different. However, it will also be necessary according to school department estimates to build a new elementary school on Pearl Street, a new elementary school in the Homestead Avenue area and a new elementary school in the Union-Central Street area as well as present additions to the Adams and Pratt Schools, the building over of the Bicknell, the addition of 4 rooms to the James Humphrey, and an addition to either the Pond or the Nevin School.

Also, in the opinion of the undersigned, the Washington, the Jefferson and the Shaw, three wooden buildings, should be replaced immediately for safety sake. They are dangerous; — not even being equipped with fire escapes.

Thus, we are faced with a tremendous building program at a time when millions must also be spent for the sewers and the like. Yet, if we start to change our system to a three-year high school, we must complete it or have a hybrid system with some of the pupils going to high school for 3 years and the others for 4 years. Such a system will be most expensive, but will surely result unless by 1954 enough money is produced to build a junior high for East Weymouth and Weymouth Landing as well as to rebuild the Bicknell School for Junior High purposes.

In our opinion, we must obtain the best results to the pupils for the money spent. This must include having the best teachers available. Such teachers cost money. They are more important than ornate buildings. In our opinion the Town will not afford both.

It is our considered opinion that with proper additions to Bicknell, Humphrey, Hunt, Nevin, Adams, Pratt and Pond schools with the building of elementary schools in the Homestead area, in Weymouth Landing, and in the Union-Central Streets area in South Weymouth, together with the replacement of the Jefferson, Washington and Shaw schools, that the classroom needs of our pupils in the Town of Weymouth will be satisfactorily met within that period of time when such an influx of pupils will be a burden on our present accommodations. This can be accomplished at a cost which will be much less than the proposed junior high school system. It must be further observed, however, that not only will the cost be less but we will be keeping our present system and will not be involved in a hybrid system which will necessarily be the result of the long-term program suggested by the school committee. The minority of this Committee is definitely in favor, as stated before, of the proper facilities in the various buildings housing the 7th and 8th grade students for manual training,

sewing, music, art, and gymnasium facilities. At the same time the minority of this Committee is absolutely in favor of sufficient room for simple lunch room facilities. All of these facilities can be had under the 8-4 system with very little cost if proper additions are made to our present buildings.

The question of housing the High School pupils will not become acute for seven years, when the present large first grade is ready to enter the high school. By that time if present conditions continue it may be necessary to add to the present high school. It is our opinion that with the savings that can be accomplished by the continuation of the 8-4 system, a suitable addition can be made to the high school when the time arrives to take care of the needs of the 4 year high school program.

In the meantime, the immediate problem is the proper housing, the proper classrooms, the proper facilities for pupils of the elementary and grammar grades.

THE COMMONWEALTH OF MASSACHUSETTS
DEPARTMENT OF CORPORATIONS AND TAXATION

DIVISION OF ACCOUNTS

REPORT OF AN AUDIT OF THE BOOKS AND ACCOUNTS OF THE TOWN OF WEYMOUTH

For the Period from August 19, 1947 to November 30, 1948

Made in accordance with the Provisions of Chapter 44. General Laws

April 26, 1949

To the Board of Selectmen
Mr. Joseph A. Fern, Chairman
Weymouth. Massachusetts

Gentlemen:

I submit herewith my report of an audit of the books and accounts of the town of Weymouth for the period from August 19. 1947 to November 30, 1948, made in accordance with the provisions of Chapter 44, General Laws. This is in the form of a report made to me by Mr. Herman B. Dine, Assistant Director of Accounts.

Very truly yours,
FRANCIS A. LANG,
Director of Accounts

Mr. Francis X. Lang
Director of Accounts
Department of Corporations and Taxation
State House, Boston

Sir:

As directed by you, I have made an audit of the books and accounts of the town of Weymouth for the period from August 19, 1947, the date of the previous audit, to November 30, 1948, and submit the following report thereon:

The records of financial transactions of the several departments receiving or disbursing money for the town, or committing bills for collection, were examined and verified by comparison with the books of the treasurer and with the reports and records on file in the town accountant's office.

An analysis was made of the town accountant's ledgers, the receipts being checked with the treasurer's books and the payments being compared with the warrants authorizing them and with the treasurer's records of payments.

The necessary adjusting entries resulting from the audit were made, and a balance sheet, which is appended to this report, was prepared showing the financial condition of the town on November 30, 1948.

The books and accounts of the treasurer were examined and checked. The receipts, as recorded, were analyzed and checked with the records of the several departments collecting money for the town and with the other sources from which money was paid into the town treasury, while the payments were compared with the selectmen's warrants authorizing the treasurer to disburse town funds.

The cash book footings were verified, and the cash balance on November 30, 1948 was proved by actual count of the cash in the office, by reconciliation of the bank balances with statements furnished by the banks of deposit, by examination of the savings bank books, and by inspection of the securities which are part of the treasurer's cash balance.

The payments made for maturing debt and interest were compared with the cancelled securities on file and with the amounts falling due.

The savings bank books and securities representing the investment of the trust, investment, and retirement funds in the custody of the town treasurer were examined and listed. The income was proved, the transfers to the town wre checked with the treasurer's recorded receipts, the disbursements were verified, and the cash balances were proved by reconciliation of the bank balances with statements furnished by the banks of deposit.

The records of federal income taxes withheld from employees' salaries and wages were examined and checked, the amounts withheld being compared with the treasurer's recorded receipts and the amounts paid over to the Collector of Internal Revenue being checked with the deductions.

The records of tax titles held by the town were examined and listed. The transfers to the tax title account were compared with the tax books and the redemptions were checked with the treasurer's recorded receipts. The records of tax possessions were examined and listed, the additions as a result of tax title foreclosures being proved and the sales being compared with the treasurer's recorded receipts. The tax title and tax possession transactions were further verified by comparison with the records in the Registry of Deeds.

The books and accounts of the tax collector were examined and checked in detail. The taxes, excise, and assessments outstanding at the time of the previous examination and all subsequent commitment lists were audited and compared with the assessors' warrants issued for their collection. The payments to the treasurer were verified, the recorded abatements were compared with the assessors' records, the amounts transferred to the tax title account were proved, and the outstanding accounts were listed and proved.

It is recommended that all refunds on account of overpayments of taxes to the collector be made by the town treasurer on authority of duly approved warrants.

The records of departmental accounts receivable were examined and checked. The recorded collections were compared with the treasurer's cash book, the abatements were verified, and the outstanding accounts were listed and proved.

The books and accounts of the water department were examined and checked. The commitments were proved, the payments to the treasurer were compared with the treasurer's recorded receipts, the abatements were checked with the water commissioners' record of abatements granted, and the oustanding accounts were listed and proved.

The outstanding tax, excise departmental, and water accounts were verified by mailing notices to a number of persons whose names appeared on the books as owing money to the town, the replies received thereto indicating that the outstanding accounts, as listed, are correct.

The town clerk's records of town meeting proceedings were examined, the appropriations and loan authorizations being checked to the town accountant's ledger.

The financial accounts of the town clerk were examined for dog and sporting licenses as well as for receipts from miscellaneous licenses and fees. The payments to the town treasurer were compared with the treasurer's recorded receipts and the payments to the Division of Fisheries and Game were compared with receipts on file.

The surety bonds of the officials required to file them for the faithful performance of their duties were examined and found to be in proper form.

The records of the board of selectmen, board of health, sealer of weights and measures, building and wire inspectors, of the health, school, and library departments, as well as of all other departments collecting money for the town or committing bills for collection, were examined and checked, the recorded collections being compared with the treasurer's recorded receipts.

In addition to the balance sheet previously mentioned, there are appended to this report tables showing a reconciliation of the treasurer's and the collector's cash, summaries of the tax, excise, assessment, tax title, tax possesion, departmental, and water accounts, as well as tables showing the condition and transactions of the trust, investment, and retirement funds.

For the cooperation extended by the various town officials during the progress of the audit, I wish, on behalf of my assistants and for myself, to express appreciation.

Respectfully submitted

HERMAN B. DINE,
Assistant Director of Accounts

The Honorable Board of Selectmen
Town Hall
East Weymouth, Massachusetts

Dear Sirs:

I submit this 1949 Annual Report for your approval.
The number of permits obtained from your office are as follows:

61 Commercial Permits
180 Bait Permits

I wish to thank you gentlemen for your considerate co-operation during the past year, also, the kind assistance I have received from Mary S. Bric, Clerk of the Board of Selectmen.

I am grateful for the help and assistance of Chief of Police, Edward F. Butler, and the Police Department.

Very truly yours,
LAWRENCE M. PITTS,
Deputy Shellfish Constable

REPORT OF THE ELECTRIC LIGHTING COMMITTEE

Weymouth, Massachusetts
December 31, 1949

To the Honorable Board of Selectmen:

Your committee has renewed its usual contract with the Weymouth Light and Power Company to light the streets of the Town. The rates per light are the same as in the last several years. but the Company informs us that due to the tremendous cost of new extensions it may be necessary to increase rates in 1951.

This year, as last year, the Company has been unable to find sufficient time to make as many installations as were ordered and for which funds were available. This was due to the extremely rapid growth of the Town. About five hundred houses were built this year, all of which called for service extensions.

We have spent considerable time on improved lighting of our squares with mercury lamps similar to those in use at the Hingham Depot and on parts of the Southern Artery in Quincy. At the request of your Board we have asked an appropriation for this work.

We have asked the Weymouth Light and Power Company to give us a report for increased lighting of Washington Street from Middle Street to Pleasant Street.

Our monthly bill is now about $3600.

Respectfully submitted,

ELECTRIC LIGHTING COMMITTEE
Olindo Garofalo, Chairman
J. Herbert Libbey, Clerk
Alfred S. Tirrell

Wiring Inspector

REPORT OF OLD AGE ASSISTANCE

January 3, 1950

Town Hall
The Honorable Board of Selectmen
East Weymouth. Massachusetts

Gentlemen:

As the Agent of the Bureau of Old Age Assistance, I wish to call the attention of your Board to the unusual increase in the number of cases for the calendar year of 1949. For the first three-quarters of the year, the increase in Old Age Assistance was what we generally consider a normal increase, but toward the end of September the increase was, in my years of having Old Age Assistance, almost unprecedented, unless we revert back to the year 1937, when the age limit was dropped from 70 to 65 years of age.

The month of December, which can usually be used as a norm of what to anticipate for the next year, shows the same heavy application for Old Age Assistance. In checking the report of the State Department, I find that this tendency is not local, but Statewide. Therefore, you will find as a result of anticipating this continued increase, I have asked for a much larger appropriation this year.

You are, without doubt, aware of the several changes in Old Age Assistance laws, that can be in no way restricted and, therefore, call for a greater expenditure of money. Particularly would I note four very salient points. 1. Leisure Time Activities increase of $4.00 per month, which alone called for an increase of over $30,000 on our budget for the year. 2. The increase allowance permitted in bank accounts. 3. The increase allowance of equity in life insurance. 4. The increase hospital rates which have advanced from $8 to $10 per diem.

The following is my Old Assistance Report:

Total Applications Received	172

Town Appropriation	$ 80,000.00
Federal Reimbursment	28,177.13
State Reimbursment	34,945.25
Total Expenditures	104,871.75
Cost to Town	31,749.37

The indications show that there is an upward trend on Aid to Dependent Children. This aid in the past year shows no great increase in numbers but the cost has been higher than the previous year. Without doubt, the year 1950 will show a much greater increase both in the number of cases and the cost.

Very truly yours,

THOMAS P. DELAHUNT, Agent
Board of Public Welfare

BOARD OF PUBLIC WELFARE

January 3, 1950

The Honorable Board of Selectmen
Town Hall
East Weymouth, Massachusetts

Gentlemen:

The General Relief budget for 1950 indicates a very strong upward trend over the past sevral years. The numerical increase in welfare cases throughout the year of 1949, in itself, is not alarming but would indicate what we may anticipate for 1950.

There is widespread unemployment that might show the cost for the next fiscal year could well reach alarming figures.

It would appear to your Agent that it is only sound business practise with the tremendous amount of money being expended by this department, primarily by legislative action, that more time be devoted by your Board for the proper administration of relief.

It is my desire that your Board meet on a different night other than the night you meet as the Board of Selectmen and, with your permission, I am proposing to the Finance Committee that an additional sum of money be appropriated for salaries to cover expenses of these meetings.

Very truly yours,

THOMAS P. DELAHUNT, Agent
Board of Public Welfare

FOURTH ANNUAL REPORT

OF THE

TRUSTEES OF THE LABAN PRATT HOSPITAL

To the Board of Selectmen
Town of Weymouth
Massachusetts

By direction of the Chairman of the Trustees of the Laban Pratt Hospital, the undersigned is duly authorized to submit to your Honorable Board this annual report, being the fourth annual report of the proceedings of the Trustees, required by the provisions of Section 3, Chapter 246, an Act of the Massachusetts Legislature, approved April 26, 1946, creating Laban Pratt Hospital as a corporation.

The term of office for the Trustees are as follows:

Term expires in 1954:
Mrs. Harriet S. Berry
Hon. Kenneth L. Nash
Mr. George E. Pruden

Term expires in 1953:
Mrs. Lucy P. Mahoney
Mr. Roger P. Loud
Mr. Roland T. Seabury

Term expires in 1952:
Mrs. Gertrude A. Cassesse
Mr. C. Parker Whittle
Mr. Clement N. Curtis

Term expires in 1951:
Mr. Preston A. DePlacido
Mr. Charles H. Downs
Mr. A. Wesley Sampson

Term expires in 1950
Mrs. Marguerite W. Shaftoe
Mrs. Emily L. McGovern
Mr. John L. Gallant

Mrs. Harriet S. Berry was appointed to fill the vacancy caused by the resignation of Mr. Timothy G. Osborn.

The Trustees held two meetings for the year 1949. At a meeting held on November 8 Mr. Lincoln W. Pierce, Chairman of the Trustees of Milton Hospital, now under construction, gave some valuable information concerning the problems of the construction of a million dollar fifty-five bed hospital being erected in Milton. The facts and figures submitted by Mr. Pierce served to substantiate the opinion of the Laban Pratt Trustees that immediate construction of a hospital, in view of construction costs and funds available, would not be wise.

LABAN PRATT HOSPITAL

REPORT OF SEALER OF WEIGHTS AND MEASURES

December 31, 1949

To the Honorable Board of Selectmen

Gentlemen:

I herewith submit my annual report for the year 1949. The sealing fees amounted to $624.99. This is an increase of 100% over last year due to the legislature increasing the sealing fees by statue. The Sealer's position is under State supervision.

My general work for the year is as follows:

Tested and sealed 1325 weighing and measuring devices

Not sealed 44 and condemned 5

Trial weighings and measurements of commodities sold or put up for sale and summary of inspections after sealing 1294 articles and devices.

Respectfully submitted,
CHARLES W. BURGESS,
Sealer of Weights and Measures

REPORT OF TOWN ENGINEER

To the Honorable Board of Selectmen of Weymouth

Gentlemen:

I herewith submit my forty-third annual report as Town Engineer of Weymouth.

The preparation of the Assessors maps to January first of each year involving as it does work at the Norfolk Registry of Deeds; the Norfolk Registry of Probate; the Land Court; information from many private surveys; from other plans made but not on record; and from any other available source, still continues as the major item in the engineering department; this is added to by the adoption of the block system which is of decided use and benefit to the Assessors and also to other departments, and further augmented by increasing transfers and building during the latter years. While these so-called Assessors sheets were originally made for the use of the Assessors they are now used either as a whole or in part by nearly all of the town departments, some of these departments obtaining a new set up to date each year.

The sheets are also sold singly or otherwise, by the town, if desired for private use.

A complete atlas, which contained all of the 65 Assessors sheets (reduced to a smaller scale) and various other information was published in 1938, 1940, 1944, 1946 and lastly during the past year 1949. After the town departments were supplied with this new atlas the balance (40) were sold at $15.00 each, thus returning to the town $600. of their cost.

During the past year 1000 small street maps were revised and published by the town and have been and are on sale at the office of the Clerk of Selectmen.

I must again call attention to the necessity and value of recording all legal papers pertaining to the sale or transfer of land, or the disposal of real estate by will. I think any lawyer will appreciate the unnecessary work, the increased expense and delays caused to clients or claimants by unrecorded papers relative to change in ownership of land.

The Assessors are bound to recognize the owner of record as the person to be assessed although this may not be true, owing to the failure to record a transfer, and might result in a sale of the property for unpaid taxes.

Other surveying or engineering has also materially increased during the latter years due to the increase in population and to the consequent extension or addition of municipal improvements.

Among the work done by the engineering department I would list the following items:

The giving of many street lines when ordered by the Selectmen at the request of an abutter; survey and plans for drainage easements; surveys and plans of proposed relocations or widenings; curb layouts; streets numbered on new layout plans for use of the Assessors, Building Inspector, etc.; checking street lines on plans which were sought to be registered in the Land Court and of which the town had notice; plan of proposed parking area off Washington Square; survey, staking and grades of Vine Street extended to Broad Street; a relocation plan of West Street was also commenced; and various other surveys, plans or profiles.

Staking and grades for street construction was done for the street

department; description of lands sold by the town done for the legal department; work for the park department relative to various parks; staking building additions, surveys and plans, topographical survey and plan for the school department; work for the water department; and other work done for various committees.

Above in brief covers the work done by this department.

The scarcity of some supplies still continues and the prices for same and for materials remain high.

To your Board, to all other departments of the town and their personnel, and to many private citizens, and to others, I extend my thanks for their help and courtesy to me and to my assistants.

Respectfully submitted,
RUSSELL H. WHITING,
Town Engineer

REPORT OF DEPARTMENT OF VETERAN'S SERVICES

East Weymouth, Mass.
December 31, 1949

The Honorable Board of Selectmen
Town Hall
East Weymouth, Massachusetts

Gentlemen:

I submit herewith to you and through your Board to the townspeople my annual report for the year 1949.

The activities of the department from a financial viewpoint show only a slight increase over last year — less than $6,000. but in reality more cases have been processed. This can be readily understood since Weymouth has grown so rapidly, and veterans with their families have made up the major portion of that growth. Now there seems to be a slight business recession in evidence with many veterans in distressed circumstances, and whether Weymouth settled or not, application for aid is made through our office. The recent lay-offs at the Hingham Ammunition Depot and Fore River Shipyard have seriously affected our World War II veterans. Since mid November the load has been extremely heavy, and it is contended that it will be heavier before additional unemployment benefits are available April first of 1950.

Because all town department expenditures for the year are reported in detail elsewhere by the Town Accountant. and further since we have only received credits from the State through September 1949, there are no complete figures available for the year. However, verified figures released by the State late in November for the year 1948 show a total refund credit of $18,546.28 for Weymouth settled and State settled cases in addition to a War Allowance total of $57.00.

In closing we wish to take this opportunity to thank our local Red Cross Chapter, Weymouth Family Service, and all veterans' organizations who contributed so generously and aided so ably when the Goodwin family was made homeless by a disastrous fire. The cooperation of all was greatly appreciated. We also wish to express our gratitude and thanks to your Board and all town departments for their assistance during the year.

Respectfully submitted,
RAYMOND E. STEIN, Director

REPORT OF THE PLANNING BOARD

To the Honorable Board of Selectmen and Citizens of Weymouth:

Your Planning Board who for several years past has been operating under Chapter 340, Acts of 1947, Sections 81A to 81Y inclusive, held twelve regular and ten special meetings during the past fiscal year, it has been the busiest year in the history of the Planning Board. During the year there have been a total of 19 new developments in various sections of the town, approved by the board and these developments have constituted a total of 484 new dwelling homes which needless to say represent the largest building program ever to be undertaken in the history of the town.

During the year two vacancies occurred on the board which were filled by Sandy Roulston and George Mapes, two able and conscientious citizens whose training and experience have been an invaluable asset to the board.

During the year several public hearings have been held by the board, regarding certain changes of boundary lines of the present zoning laws, with the Planning Boards recommendations to the Annual Town Meeting.

The board has had little time this year to give to long range planning, due to pressure of all matters concerning the many developments, however the board feels that there are several much needed improvements. Such as the addition of sand to our beaches to provide recreation for our citizens who find it impossible to enjoy the beaches out of town. Some consideration must be given to limited parking at Columbian Square, South Weymouth. Since patrons of the local theatre park their cars in the Square for two and three hours at a time, making it impossible for shoppers to find parking spaces.

Consideration must soon be given to a location for a Municipal Air Port before all available land has been taken for other purposes. Since the population of Weymouth is increasing very rapidly, some thought should be given to transportation in and out of the town. The development of Weymouth Great Hill should be undertaken shortly for park purposes.

A study should be made of the advisability of a breakwater at Wessaggussett Beach for the protection of boats moored in this area, these boats being taxable property. Traffic congestion at Lincoln Square as a result of the recently created Stop & Shop market.

These are but a few of the many improvements which will shortly be studied by your Planning Board, and in closing we wish to express our thanks for all those who have given their help and assistance during the past year.

Respectfully submitted,

ROY H. ROSEWELL, Chairman
WILLIAM B. HARTY, Clerk
WALTER B. HEFFERNAN

REPORT OF THE SEWER DEPARTMENT

December 31, 1949

To the Board of Selectmen, Town of Weymouth:

We are pleased to forward our Superintendent's Annual Report and with it our own for the year 1949.

The increasing amount of interest in and demand for sewerage facilities commands our attention. The question of how best to serve the need presents a problem and a challenge.

The problem concerns construction, for by its very nature sewer work creates inconvenience and disruption in the street and to its abutters where trenches are dug to lay pipe. We are fully aware of the situation, and are giving the matter careful attention in an effort to cause the least difficulty. Your indulgence is hardly expected, but may we ask for reasonable consideration as the pipe line passes by.

The challenge concerns extension of service to the needed areas at a faster pace. Sewering of the Town's widely-separated centers requires the construction of four large separate main or trunk sewer lines, each discharging into the Metropolitan outlet. One of these, the Commercial Street trunk sewer, has been built and through lateral connections at its end, already serves the Mt. Pleasant and surruonding area bounded by Washington Street, Broad Street, Roosevelt Road, and Commercial Street in Weymouth Landing.

We are now faced with building the Central and South Weymouth trunk sewer to serve the Columbian Square area, badly in need of sewage disposal facilities, while the East Weymouth and North Weymouth trunks should follow, for no relief can be afforded any area until after the trunk sewer is constructed to it.

These trunk sewers are costly and paid for by the Town. Thus, it follows that early construction of all trunks would offer equal service to each main area in return for equal contributions toward cost. A program of building these remaining trunk lines soon would entail larger appropriations for the next few years, while in later years, lesser amounts could be used to branch out with laterals and gradually each area would be covered.

The Town is growing rapidly and earlier programs are simply inadequate, to meet present sewer requirements. How much to spend, how far to go, are matters to be determined by the Town, and we will do our utmost to meet her requirements.

Respectfully submitted,

BOARD OF SEWER COMMISSIONERS

J. Herbert Libbey, Chairman
John W. Field
Charles J. Masterson

REPORT OF SUPERINTENDENT OF SEWER DEPARTMENT

December 31, 1949

To the Board of Sewer Commissioners, Town of Weymouth:

I submit herewith the second annual report of the Sewer Department.

The continued expansion of the Town's sewer system, the beginning of active construction activities by department forces, the establishment of our own engineering department. and the remodeling of the Town Infirmary property and subsequent occupancy by the department for offices are the most noteworthy items to report. A columnar summary of sewer construction is appended hereto.

The year was begun with Contracts No. 3, No. 4, and No. 5 in an active construction status. The rather open winter made it possible and feasible to continue the installation of lateral sewers in the Mt. Pleasant section of Weymouth Landing under Contract No. 3. Contracts No. 4 and No. 5 were for the building and equipping of the Pumping Station in Weymouth Landing, and although the installation of the pumps was somewhat delayed by manufacturers' shortages, the station was placed in active operation during April 1949. An additional allocation of funds was made to Contract No. 3 after the Annual Town Meeting to replace the amount previously cut back from the original bid and the contract was completed in July 1949.

The beginnings of a department labor force and an engineering department were made soon after the Annual Town Meeting. The labor force at its peak included ten men, but it has been reduced to six at this writing. It is and will continue to be engaged in the maintenance and upkeep of the sewer system, and the construction of house connections or particular sewers as they are referred to technically. Construction equipment was purchased and the first connection by department forces was completed May 31, 1949. The acquisition of a truck and equipment created the need for garage and storage facilities and this was solved temporarily by utilizing several sheds at the Town Infirmary.

The engineering force has been expanded to include five men who are actively engaged in the design, planning, and supervision of sewer construction, the preparation of easements, record and assessment plans, and the planning of future extensions of the sewer system.

A contract for the first section of the Central and South Weymouth Trunk sewer was awarded in April 1949. This sewer is a main or trunk sewer which will eventually carry all of the sewage from the central and south sections of the town and is one of the major steps in the building of Weymouth's sewage system. Further extensions of this trunk sewer are proposed for succeeding years until it is completed and the drainage area it serves covered with a network of lateral sewers. The type of soil predominating in this drainage area makes it vital to expand this sewer district with all reasonable speed.

As the personnel of the department was expanded to include engineers and an outside working force. it became very necessary to have additional office space for efficient administration. The Town Infirmary property, made available to us by the Board of Selectmen and the vote of the 1949 Annual Town Meeting, was appraised as to its usefulness for offices and working quarters. This department prepared plans and specifications for a contract for remodeling the lower floor of the Infirmary building for office space and the third floor for a small apartment for the building custodian. A contract was let for the work which included new partitions,

plumbing, lighting, flooring, painting, and office equipment. The work was completed in November and the offices were formally occupied by the department on November 21. 1949. The department's office forces are now housed in very pleasant, well lighted and adequate quarters.

Following the creation of an engineering department additional lateral sewers were surveyed and planned by the department engineers for several streets in Weymouth Landing and North Weymouth. A contract was awarded in September 1949 for the proposed construction in Weymouth Landing and another contract was awarded in October 1949 for the proposed construction in North Weymouth. Both contracts are being worked on actively at the present writing, supervised by departmental personnel.

Engineering work is being carried on by department engineers for the preparation of plans and specifications for additional sections of the Central and South Weymouth Trunk Sewer.

Assessment plans and computations for levying the betterment assessment for common sewer construction against the properties abutting on the several streets wherein common sewers were built during 1949 have been made, and the bills and committment sheets prepared by this department have been forwarded to the Board of Assessors. The total amount of assessments for common sewers to date has been $73,619.60 of which $18,429.18 has been paid. The charges for particular sewer construction have been computed and the bills and committment sheets prepared and submitted to the Board of Assessors. The total of charges for particular sewers to date is $21,758.45 of which $3,006.75 has been paid.

Attention must be given to the problem of adequate garaging and housing the construction and maintenance equipment of the department. At present several odd sheds and buildings, formerly used by the Town Infirmary for storage, poultry houses, etc., are being utilized but at best they are extremely inadequate and unsatisfactory. The basic ground area is available for the construction of an efficient and necessary garage, repair shop, and storage shed and the terrain will lend itself very well for the construction of the public works type of service buildings.

I extend my sincere appreciation to all who have so generously helped during the year and particularly to the department employees, one and all, who have helped so ably to accomplish the years work.

Respectfully submitted,

FRANCIS H. HAMILTON,

Superintendent of the Sewer Department

REPORT OF THE SHELL FISH CONSTABLE

December 31, 1949

To the Honorable Board of Selectmen
Town of Weymouth, Mass.

Gentlemen:

I respectively submit my annual report as Shell Fish Constable for the year 1949.

The Weymouth shores are still open, but only to commercial clam diggers, and all clams must still be chlorinated before use. Permits for Weymouth residents only may still be obtained for bait purposes only. This applies to both clams and worms. There is no charge for permits to dig worms.

The following is a summary of investigations made for the Shell Fish Conservation Dept. during the year: I have been in constant contact with the Coastal Warden, and have conducted 5 investigations of clam smuggling in cooperation with him. With my Deputy Warden I have conducted 6 investigations. Complaints and investigations that I personally conducted were four.

A complete revision of the Shellfish ordinances is being studied at the present time, with new ordinances forthcoming at an early date.

At this time I wish to extend my sincere thanks to our new Deputy Warden, Lawrence Pitts. Due to his sincere efforts the permits issued for Commercial Clam Diggers has increased from 4 in 1948 to more than 60 during the current year. This represents about $300.00 additional revenue to the Town of Weymouth.

Respectfully submitted,
CECIL L. EVANS, Shell Fish Constable

REPORT OF THE HARBOR MASTER

December 31, 1949

To the Honorable Board of Selectmen
Town of Weymouth, Mass.

Gentlemen:

I respectfully submit my 1949 report of the activities of the Harbor Master's Department.

The patrol of Weymouth's waterfront was made daily from April 9 to November 10th on the same basis as 1948, with an approximate mileage of 2200.

The following services and assistance calls were rendered during the year 1949:

Lost rowboats recovered	31
Persons assisted	40
Sail and small power boats, 15 ft. to 45 ft. assisted	29
Investigation of Grape Island fire, with Fire Dept.	1
Investigation of complaints	5
Small races convoyed	25

Interclub races convoyed	1
Assist at near drowning at Yacht Club	1
Boat fire, caused by outboard motor trouble	1
Emergency calls covered at request Police Dept.	4
Fore River launchings attended	5
Found and brought home persons reported lost in boats	8

The addition of two way police radio equipment to the Harbor Masters' boat is being studied to further increase the efficiency of the Dept. and also give greater cooperation with the Police Dept. headquarters. A larger boat has been purchased by myself which greatly aided me in carrying out my duties.

I wish to again extend my heartfelt thanks for the cooperation of all town officials and others, who so willingly gave their time and efforts to help me.

Respectfully submitted,
CECIL L. EVANS, Harbor Master

REPORT OF THE FIRE DEPARTMENT

January 5, 1950

The Honorable Board of Selectmen
Weymouth, Massachusetts

Gentlemen:

I herewith submit the annual report of the Fire Department for the year ending December 31, 1949.

The department responded to eight hundred and twelve alarms during the year. Of this number one hundred and thirty-three were for fires in buildings. Six hundred and seventy-nine were for all other emergencies as listed below.

A new pumping engine was put into commission in November replacing a twenty year old pumper. With the replacement of a piece of apparatus each year for the next two years, the apparatus of the department will be completely modernized.

The stations are in good condition except for a moderate repair job on station 2.

A program of building inspections has been put into effect and also a schedule of drills for members of the department. By these activities we hope to minimize the dangers of fire.

I wish to thank all who have assisted the department in any way during the past year.

Respectfully submitted,
WALTER R. MURRAY,
Chief of Fire Department

There were 180 Bell Alarms and 632 Still Alarms for a total of 812 Alarms for the year.

REPORT OF SUPERINTENDENT OF FIRE ALARM

January 3, 1950

Chief Walter R. Murray
Weymouth Fire Department

Dear Sir:

I respectfully submit my report of the Fire Alarm System for the year ending December 31, 1949.

Bell Alarms for Fires	179
False Alarms	25
Lost Child Call	1
No School Signal	2

The outside lines are in good condition, a section of these are replaced each year.

Eleven Fire Alarm Boxes have been added to the system at new locations, which required the running of five miles of wire. We have completed the installation of Red Lights over all Fire Alarm Boxes.

In conclusion I wish to extend my sincere thanks to all for the services and co-operation rendered at all times.

Respectfully submitted,
ERIC J. SALISBURY
Superintendent of Fire Alarm

REPORT OF THE TOWN COUNSEL

January 5. 1950

To the Honorable Board of Selectmen

Gentlemen:

During the year the Legal Department has prepared or examined and approved all contracts the Town has entered into. Many releases, transferring whatever interest the Town had in real estate for which it had no further use or such as may have been acquired as a result of foreclosure of tax titles have been drawn, paid for and recorded, thus making this property taxable again for the Town.

All bonds and such other legal instruments that have been submitted have been examined and approved. From time to time consultations have been held with various employees and heads of departments concerning their official duties and in many instances written opinions have been prepared for them. Meetings of the Board of Selectmen have been regularly attended and conferences with the Board have frequently been held. The Town By-Laws have been upheld where serious violations appeared.

Despite all the care the Street Department uses in its endeavor to maintain our streets in a condition of safety, accidents are bound to happen and many persons suffering injury to their person or property while properly travelling on our highways make claims for reimbursement for their damages. In some situations such claims are well founded but in far too many instances the injury, if any they had, was due to their own negligence. The Department discusses such cases with any claimants available and endeavors to determine in each instance the validity of these claims. Such are settled if possible, but some of the others ripen into suits though the majority appear to be terminated after consultation. Our record on these highway accident cases is on the whole quite satisfactory.

In point is the case of Cleveland v. Inhabitant of the Town of Weymouth, Norfolk Superior Court, No. 44444 in which the plaintiff sought to recover damages from the Town because of an alleged defective condition of one of the Town's highways. The plaintiff alleged she received serious and lasting injuries as a result of being thrown from a motor vehicle in which she was riding due to an accumulation of gravel on the highway constituting an actionable defect in the way. The ad damnum of her writ was in the sum of ten thousand dollars ($10,000.00). The Board of Selectmen had been advised that on the facts as they had been provided the department that the Town was not liable for the damage, regrettable as the injuries were. After the trial the verdict was rendered in behalf of the Town.

Though there have been several other matters in suit during the year none have been of major importance and the results obtained in each instance have not been harmful to the Town's best interests. At present several other matters are pending before the courts but the amount involved in the aggregate is not large.

The work of the Department is constantly growing. This is due largely to our growth in population and the necessary advances in municipal services demanded by such a growth. The expansion in our School Department building program and the extension of our sewerage system as rapidly as funds are made available entailing as they do the examination of titles, entering into agreements for the purchase of property or the taking of land by eminent domain, the passing of titles, etc., call for additional activity on your Department. There are other factors particularly the pas-

sage of new legislation covering so many fields and subjects that demand constant care and alertness in keeping abreast of the rapidly enacted statutory changes. The year ends with the legal affairs of the Town in a satisfactory condition.

The consideration, cooperation and help given me by your Board and by the officers and employees of the Town has been unfailing and is much appreciated by me.

Respectfully submitted,

KENNETH L. NASH
Town Counsel

REPORT OF THE BOARD OF HEALTH

December 31, 1949

Board of Health
Town of Weymouth
Massachusetts

Gentlemen:

I herewith submit my annual report for the year ending December 31, 1949.

During the past year the following examinations were made on the children in the two Parochial Schools:

Total number of examinations made on children	4,798
This includes:	
Number of eyes examined	891
Number of ears examined	862
Number of heads examined	2,256
Number of physicals done by Doctors	372
Number of miscellaneous examinations	270
Number of children immunized against Diphtheria	120
First aid to children	27
Number of telephone calls to parents	46
Number of children taken to Doctor's office	5
Number of children taken home sick	48
Number of notices sent to parents on:	
teeth	66
eyes	56
ears	51
pediculosis	59
physicals	42
Number of house visits to parents	30

I wish to express my sincere gratitude to the members of the Board of Health for all the cooperation and the many courtesies extended to me during the past year.

Very truly yours,
MADELYN M. McINTOSH, R.N., Health Nurse
Secretary to the Board of Health

December 31, 1949

Board of Health
Town of Weymouth
Massachusetts

Gentlemen:

I herewith submit my annual report for the year 1949.

During the past year several new projects have been inaugurated by the Health Department. One of the major accomplishments was the Aerial Spraying of 1480 acres of a 3% solution of D.D.T. This spraying took place during the months of June, July, August and September. Many calls came to this office, complimenting us on the fine job this spraying had done in various localities.

In October the location of the Town Dump was moved from Main Street, Weymouth to Wharf Street, East Weymouth. With this move a new system was used to make this a sanitary move. Burning of debris has been eliminated and this is now covered with a sanitary fill after each dumping.

Throughout the year dairies have been inspected monthly. Samples of milk and cream have been taken regularly from the farms and trucks. On June 1, 1949, the Pasteurization Law was put into effect. This means that all milk in Weymouth must be pasteurized.

Restaurants have been inspected regularly by this department. Spot checks of restaurants and liquor establishments have been made by all members of the Board.

Infant boarding homes, convalescent homes, overnight cabins, pasteurization plants, bottling plants have been inspected regularly and have been properly licensed. All members of the Board have been most cooperative and have spent many hours making inspections of the various phases of public health work.

The sewerage conditions of the town are being improved in a most satisfactory manner. Mr. Francis Hamilton, Superintendent of the Sewer Department, has been very cooperative and through his efforts many unhealthy conditions have been remedied.

In 1949 the Board of Health with the cooperation of the State and the Norfolk County Health Association sponsored a mass chest X-Ray for the entire town. During the summer, 8500 X-Rays were taken of local residents. Of this number 22 were found to have some disorder. It not only discovered Tuberculosis but also many other ailments such as enlarged heart, tumors, cysts, abcesses etc.

During 1949 the town had 21 cases of Poliomyelitis. The Health Department makes yearly contributions to the Massachusetts Infantile Paralysis Cliniic of Children's Hospital, where local patients are afforded treatment as required.

I wish to express my gratitude to the members of the Board of Health for the cooperation extended to me during the past year.

Respectfully submitted,
HENRY F. GODIN, Health Agent

REPORT OF TREE AND MOTH SUPERINTENDENT

January 6, 1950

To the Honorable Board of Selectmen and Citizens of Weymouth:

The Tree and Moth Departments have had their usual busy year.

Dutch Elm Disease is on the increase, being about evenly distributed throughout all sections of town. During 1940, a total of 54 trees have been affected and will have to be removed. These trees are both public and private trees. The number of each is almost equally divided. To date, a total of 90 elm trees have become infected since 1946 when the disease was first discovered in the Spring St., Essex St. area of Weymouth. Each year the number of diseased trees has almost tripled itself, so that it is safe to assume that we shall have 150 Dutch Elm diseased trees in 1950.

A special article calling for a $5,000.00 appropriation to be used exclusively for Dutch Elm disease control work will come before the 1950 Annual Town Meeting. **It needs your support.**

The severe summer drought of 1949 will take its toll of trees in 1950. Old established trees and new plantings will succumb to the lack of moisture. This will be especially noticeable in areas where large scale grading and trench digging operations have been taking place. These digging projects lower the water table in the soil, making it difficult or impossible for trees and vegetation to get sufficient soil moisture to dissolve available plant foods.

Our insect pest control work has gone along well. It is not understood by our public, but our insect pest control program does not cover all insects. Under Chap. 660, Gen. Laws, Acts of 1946, the money which you appropriate at Town Meeting for the Moth Dept. is for control work against "Gypsy Moth, Browntail Moth, Tent Caterpillar, Oriental Hag Moth, Elmleaf Beetle." (Sec. 11).

Such insects as Japanese Beetle, European Ear Wig, Lace Flies, Birch Leaf Miner, etc. are entirely out of our control unless the Town sets up separate money for their control or eradication.

The airplane spraying program sponsored jointly by the Moth Dept. and Board of Health was a tremendous success. All swamp areas of the town were sprayed four times during the summer for control of mosquito larvae. This work has been well received by the public, with the expression of hope that it will be continued in the future.

Aside from routine pruning, spraying, tree removal, tree planting, poison ivy control, we have been called upon to rescue cats, a pet racoon, take care of swarms of bees, remove or dispose of hornets, wasps, yellow jackets and other stinging insects along the public way. Sometimes we get rewarded for our troubles, said reward coming from the insect personally.

We have also served the following departments in the manner as listed below:

Health Dept. — Spraying for Polio Prevention.

Street Dept. — Tree removal for Street projects.

Fire Dept. — Line Clearing for Fire Alarm System.

Police Dept. — Line Clearing for Police Signal System.

School Dept. — Tree removal, planting, poison ivy control, removal of wasp nests on school buildings, shade tree spraying.

Park Dept. — Tree removal, tree planting, poison ivy control, shade tree spraying.

Town Hall — Planting, caring for shrubbery.

During the year I have attended several courses and lectures; Tree wardens' 5 day short course at University of Mass., Amherst, a course which I have attended annually since its inception in 1936, the National Shade Tree Conference in Baltimore, Md., Tree Wardens' two day convention at Horticulutral Hall, Boston; monthly meetings of the Southeastern Mass. Tree Wardens' Association, of which I am the founder and past president. It is through the medium of these meetings and organizations with their wealth of up-to-date scientific and practical information that Weymouth is the best informed town as far as its trees are concerned, in this area. Occasionally your tree warden is called upon to advise or make recommendations to other towns in policies and practices governing the care of trees.

We must face the future with a new and serious tree disease — Oak wilt, which so far as is known, will affect all species of oak trees in the United States. At present this disease is not known in New England, but within ten years, it will have worked its way eastward from the Great Lakes and Central States where it is fanning out in all directions. Two years ago, while attending the National Shade Tree Conference, I had a first hand observation of this disease in suburban areas of Chicago. It is really a serious problem which will affect our economic as well as cultural life.

As a Department we are striving to do our utmost to give you more service, yet fully realizing the financial side of the picture which must be kept under control. It is only when we are faced with serious problems which can be taken care of with the expenditures of new money, that I present them before the Town Meeting. Many other problems or services which I could recommend to you or for you are never brought forth. Your ability to pay is always kept in mind.

Our duties are broadening and our working force is smaller than it was two years ago. It is only through labor saving equipment (enabling us to do more work in less time) that we can make up the difference.

It has been a pleasure to serve you and to cooperate with all Departments needing our assistance.

Our public relations with the Board of Selectmen, Appropriations Committee, Town Hall staff, and the public as a whole have been excellent. The letters received this year are proof of this.

To all, including the workers of the Tree and Moth Departments, my thanks for your cooperation.

Respectfully yours,

V. LESLIE HEBERT,

Tree Warden and Moth Superintendent

REPORT OF SCHOOL COMMITTEE

To the Citizens of Weymouth:

The School Committee is pleased to submit the following report for 1949:

The School Department has had a number of problems during the past year, and we realize that some of the same problems will continue in 1950. The most pressing is our larger enrollment, which has been caused by the growth of our town and the increased birth rate. Everyone expects Weymouth to continue to grow for several years to come. On October 1, 1943, our enrollment was 4,455 and it has now risen to 5,343. Almost all of this increase is in the primary grades. As these children progress to the higher grades and are followed by equally large numbers who enter the first grade, our school system will be taxed to capacity. This will be true even though we build several new schools and additions.

This increase in the number of pupils makes it necessary to employ additional teachers, and it is not always easy to get qualified teachers for

these positions. The young people who are graduated from our teachers' colleges are now in a position to compare school systems and salary schedules. We are fortunate in having a good comparative schedule, or our difficulties in this respect would be greater. Nine additional rooms were opened in September 1949, and twelve rooms will be added in 1950. The new teachers have fitted into our school system very well, and the department has been helped immeasurably by the large number of married women we have been able to employ as teachers.

At the present time, the additions to the Adams and Pratt Schools are practically complete and should be ready for occupancy in February, 1950. Present plans call for a junior high school in South Weymouth and an elementary school in North Weymouth to open in September, 1951. In addition, we are asking the Town Meeting for money to purchase land on Front Street in Weymouth Landing for an elementary school which should be erected by September, 1952. The site for a central junior high school between East Weymouth and Weymouth Landing should be secured at an early date. The school will be needed about 1955.

These sites should be secured now. If we wait, all the good available land in these areas may be taken, and it may cost the Weymouth taxpayer a great deal more to obtain these new school sites. In selecting new school sites it is necessary to keep always in mind the requirements of the State of Massachusetts. If we receive the approval of our sites and buildings, the Town of Weymouth will receive reimbursement of about 23% of the construction cost. The State requires that schools be built on an area large enough for future expansion if necessary, and on one that can be used for a playground and athletic field.

For 1949 the School Committee has decided to issue an illustrated Annual Report. Because of this special, separate report, the Annual Report omits the traditional written reports of supervisors, principals, and the Superintendent of Schools, but the usual statistical tables on enrollments, etc., are included. The pictorial report will be sent to the Town Meeting members and all interested citizens. Any one desiring a copy should request one from the Office of the Superintendent of Schools.

As our school system grows, we sincerely hope that we can continue to offer the children of Weymouth a sound, constructive educational program.

REPORT OF SCHOOL BUILDING COMMITTEE

Our Committee was authorized at a Special Town Meeting held on June 28, 1948. It consists of two members appointed by the Moderator, two members of the Appropriation Committee, the School Committee, and the Superintendent of Schools. By the action of the Special Town Meeting, the Committee was assigned two distinct jobs: (1) the planning and construction of additions to the Abigail Adams School in Weymouth Heights and to the Pratt School near Lovell's Corner; (2) the planning of a Junior High School building to be located in South Weymuth.

ADAMS AND PRATT SCHOOL ADDITIONS

Bids for the construction of these additions were first opened in November, 1948. Only one complete bid was received and the amount exceeded the appropriation of $350,000.00. The plans for the Adams addition were altered, new bids were sought, and opened on February 18, 1949. The Annual Meeting in March voted an additional appropriation of $50,000.00 and the Committee awarded the general contract (less painting) in the amount of $326,750.00 to the low bidder, John Hamre & Son of Quincy. Construction of the Adams addition of six rooms was begun late in March and work on the Pratt addition of four rooms started about one month later.

There have been many delays in the delivery of materials and a strike in the steel fabricating plant in Somerville held up progress on the Pratt addition during the summer months. At this writing, the Adams addition is virtually completed and it will be opened on February 27th following the winter vacation. It is hoped that the Pratt addition will be ready for pupil occupancy on the same date.

The additions are of one story, flat roof, modern design with a solid bank of windows along one side. The classrooms are large, well lighted, and painted in light colors. Both additions will be opened for public inspection sometime in March.

SOUTH JUNIOR HIGH SCHOOL

The Special Town Meeting held on April 25, 1949 appropriated $39,999.-00 for the preparation of plans, working drawings, and detailed specifications for the construction of a Junior High School and authorized the Building Committee to secure bids for same. The Committee then met and engaged the Coletti Brothers, of Boston, who had prepared the preliminary plans, to complete the plans and specifications. The Committee planned to call for bids for the construction work to be opened on January 30th. The Appropriation Committee, however, felt that this was too late a date for them to give proper consideration to so large an appropriation and recommended that action on the article for the Junior High School appropriation be postponed from the Annual Town Meeting to a Special Town Meeting to be held shortly after the Annual Town Meeting. Our Committee has agreed to this postponement.

LIBRARY SERVICES

The Library is for the use of all residents of Weymouth. Temporary residents are entitled to the same privileges as permanent residents.

A library card entitles the holder to borrow books, magazines, pamphlets and pictures for home use. The library card must be presented when books are borrowed.

The Children's Room at the Main Library and Children's Departments at the Branch Libraries provide books and reading guidance for the boys and girls. Children under Senior High School age are entitled to a card if the application is signed by a parent or guardian. Story hours for the younger children are held on Friday afternoons throughout the Winter months.

Reference service is available at the library or by telephone.

For the convenience of residents in the various parts of the town, there is a weekly exchange of books from all Branch Libraries. A library card is valid at any Branch or at the Main Library.

SEVENTY-FIRST ANNUAL REPORT
OF THE TRUSTEES OF THE TUFTS LIBRARY
WEYMOUTH, MASSACHUSETTS
1949

The time has come when the town will have to make some arrangement for more room at the public library. At the present time, we have about eight thousand square feet of floor space that we can use. If we finish the attic, which is used for storage at the present time, we would have about twelve thousand square feet of floor space and we need sixteen thousand to take care of our population. To make the necessary changes to the present building, it will cost around $150,000.00, and then there will not be room enough to take care of the work we have to do. We do not feel justified in spending that amount of money on the present building. We believe it would be better to take the sum which it would cost to renovate the building and sell the present building making a sum which we estimate as over $200,000.00 for use as a nucleus for a new building in a more accessible location. People do not like to have their children cross in the traffic around the library and there is no parking area for cars.

At the present time we need sixteen thousand square feet of floor space. If a new library should be built, we should have to plan for at least a twenty year's growth in the population which, at the present rate of growth would be a population of forty thousand to forty-five thousand by 1970. This would require about twenty-two thousand square feet of floor space to take care of our needs.

CLARANCE P. WHITTLE,
President

On behalf of the Board of Trustees of the Tufts Library.

REPORT OF THE LIBRARIAN

To the Board of Trustees of the Tufts Library:

With the close of the year 1949, the Tufts Library has completed seventy years of service to the people of Weymouth. It was in January, 1880, that it opened its door in a one room library containing 2,405 books. For ten years it occupied that room and its book collection grew approximately thirteen thousand volumes. In the Trustees' report for 1890, we read "The town has a good library, but its home has become wholly inadequate to its present needs". Generously, the Town of Weymouth responded to that need and the present library building was erected. The large room on the second floor provided a reading room with three tables and seating capacity for as many as thirty people. It also provided twelve book stacks, sufficient to shelve twenty-three thousand books, ten thousand volumes more than the library then owned.

A MAJOR PROBLEM

That was almost sixty years ago. Today the library owns nearly sixty-seven thousand books. Those same twelve book stacks are filled to capacity and books have had to be put on top of the stacks where borrowers can neither reach them nor read their titles. Books have overflowed to fill all the walls of the children's library and the branches, and books have had to be banished to the attic, but still we have more books to shelve than we have shelves to hold them, and we have had to cramp our readers' space to gain even a little room for shelving. In that sixty years Wey-

mouth has almost tripled its population, an increase of 278%, and it is today a fast growing community. As measured by its book circulation over the same period, the Tufts Library has increased its service to Weymouth by 347%. Lack of space for both books and services is today a major problem in the administration of the library.

A PEAK YEAR

The Tufts Library has never been used as much as during this past year. The increase in the use of our reference material is hard to measure but it is substantial. We can measure exactly the book circulation from the library and that has reached an all time high of 195,907. This is a gain of more than 2,300 over our previous peak year which occurred during the height of the depression when people turned to the library to help them through idle days and found in books knowledge, and inspiration and recreation.

1949, on the contrary, has been a year of prosperity, and this unprecedented use of our library has been in spite of full employment, and many competing interests. It has been too, in spite of the excessive heat of mid-summer and of the weeks when Washington Street was torn up and traffic routed around the Square; — when it was impossible to find parking space anywhere near the library. Except for those factors, our library would have had even greater use in 1949.

One of our small deposit stations has shown the substantial gain of 44%. This is the Station in the Adams School at Weymouth Heights. The gain is due in large measure to the splendid service which Mrs. Truax is giving in that community. It is evidence of the increased value that a library can have when it is administered by a trained and experienced person. The branch libraries at North and East Weymouth report less book circulation but considerable increase in reference work. This same increase has been felt at the Main Library and we believe it to be partly the result of the teaching project carried on by the Tufts Library in cooperation with the School Department.

With the completion of the 1949-50 school year we shall have completed four years of class instruction in the use of the library and reference tools to all the seventh grades in Weymouth; each grade coming to the library for five lessons. By now, all the boys and girls in Junior High School have had these lessons and we can see the difference in the way in which they use the library as they come to us to prepare their class assignments. Full credit for this work belongs to Mrs. Ruth Connors, our Children's Librarian.

YOUTH IN THE LIBRARY

Also in cooperation with the School Department, collections of books have been placed in sixty-eight classrooms in the elementary schools. These collections totaled 4,566 books, and they had a circulation of 19,966 loans. This service means much to the boys and girls of Weymouth, many of whom live at a distance from the library and branches.

Our Children's Library has again this year awarded reading certificates to the boys and girls. 1,900 certificates, of which 232 were honor certificates, were awarded in the school year ending in June, 1949. This means that a total of at least 9,500 books have been read by the children for this project alone. The physical task of making out more than two thousand certificates has become too time-consuming, and the library will, therefore, issue only the honor certificates in the future. This will still give the boys and girls a worthwhile goal.

Story hours have been conducted every Friday afternoon during seven months of the year and there has been an average attendance of forty children.

THE LIBRARY STAFF

There has been one resignation from the Library Staff during 1949. Elizabeth Taylor, a senior assistant, left us in April to accept a position as Branch Librarian in the Brookline Public Library. Several of the staff members have availed themselves of the opportunity offered through University Extension courses, to enlarge their educational backgrounds and to increase their efficiency in their work. All staff members have visited other libraries to study comparative methods and to gain inspiration and practical ideas. Staff members, as well as the Librarian have attended meetings of the American Library Association, the Massachusetts Library Association, and the Old Colony Library Club. Our Children's Librarians are members of the New England Round Table of Children's Librarians and have attended those meetings. The Librarian has also participated in group meetings of librarians held in Boston, both for the discussion of new books and of library problems.

During September and October, the library gave full cooperation to the representatives of the Griffenhagen Associates who were making a study of the town employees for the purpose of evolving a fair classification and pay plan for all town employees.

MAINTENANCE OF THE LIBRARY BUILDING

Maintenance of the library has involved a series of repairs to our old worn-out plumbing system. After serious trouble with the drain, the library was connected with the new sewer system, but pipes within the building have also developed leaks and had to be repaired. A number of repair jobs have also been necessary on the roof of the building, and a major job of pointing up bricks in the towers is needed, for water seeps through in driving rain storms.

The broken and frayed window cords, all around the building, have been replaced. A much needed fluorescent light has ben installed in the work room, and a desk lamp provided for the main charging desk. More adequate lighting is needed everywhere in the building, but especially for the reading room, the charging desk, and the desk in the children's library.

The Vocational School built a little new shelving for use in the station at Nash's Corner, and are building a magazine case for the Children's Library.

New curtains for our Children's Library were made by the Library Staff and add greatly to the attractiveness of the room. Little chairs for use in our story hours were provided at a minimum of expense, by shortening the legs of some old discarded chairs and painting them in bright colors. This work was done very capably by a Boy Scout.

We are hoping that in 1950 we shall be able to have the interior of the library painted. It has not been done since the days of the W.P.A. and the walls are greatly in need of cleaning and repainting.

MEETINGS IN THE LIBRARY

Our Children's Room has had a little use for civic and educational group meetings. A series of three meetings of Camp-fire Leaders was held there, and it was used during the campaign for chest X-rays when the

mobil unit of the Red Cross was parked just outside. The library especially welcomes the use of its rooms for socially useful and cultural activities and the discussion of current public questions.

IMPORTANT FACTORS

1949 has been a good year in the Tufts Library. It has brought many problems but principally they have been the perennial ones that come with an old and crowded building. Whatever our building problems may be, we are striving to give to Weymouth the best library service that we can. Two factors are of prime importance; a well-rounded, adequate book collection, and a Staff that successfully uses those books to meet the need of all our borrowers. We have a loyal, interested Staff, working well together and doing their best for our public. The Librarian is grateful to them, and to the Board of Trustees for their understanding guidance and support.

Respectfully submitted,

CHRISTINE E. EVARTS,

Librarian

REPORT OF THE BOARD OF FENCE VIEWERS

January 3, 1950

Honorable Board of Selectmen
Town Hall, Weymouth Mass.

Gentlemen:

The Board of Fence Viewers performed their duties during the year 1949 without any outstanding problems. There were many more telephone calls for information concerning the building of new fences than heretofore, due probably to the large number of new homes built during the past year.

Each fence viewer performed his duty as assigned and outside of one or two questionable cases was able to complete the year's work admirably. It is suggested that before the appointment of fence viewers for the year 1950-1951 are made, the selectmen obtain assurance from prospective appointees that they will accept the position. It is important that appointees follow through by being sworn into office by the town clerk.

The fence viewers appreciate the cooperation they have had from the board of Selectmen and others this past year.

AMY HILL DUNCAN, Clerk
Weymouth Board of Fence Viewers

REPORT OF THE PARK COMMISSIONERS

December 31, 1949

To the Honorable Board of Selectmen
Town of Weymouth
Massachusetts

The Park Department has carried on its usual playground activities during the past summer. The playground program was coordinated with the bath-house program at Wessagusset beach.

This year the Weymouth Chapter of the American Red Cross provided funds to permit the sending of a person to the Life Saving Course of instruction at Camp Kiwanis. Mr. Joseph Merten of South Weymouth was selected by the Commissioners to attend and upon completion of the Course was employed at the Bath House in North Weymouth during the summer months.

The repair and maintenance of the numerous greens and parks were accomplished during the year.

New bleacher seats and a comfort station were constructed at the Stella Tirrell Playground to satisfy a need that has existed for sometime.

During the year the Commissioners have spent considerable time and effort in a survey of the town with a view to recommending to the Annual Town Meeting the acquisition of property for the construction of new playgrounds and the development of future play areas throughout the town.

We wish to extend our sincere thanks and appreciation to the Street Department and the Tree Warden for their willing assistance to our department during the past year.

Respectfully submitted,

THOMAS A. McGRATH, Chairman
FRANCIS X. KELLY, Clerk
EVERETT J. McINTOSH

Annual Report

of the

Water Department

WEYMOUTH, MASSACHUSETTS

1949

REPORT OF THE WATER COMMISSIONERS

January 1, 1950

The extreme drought that occurred during the last 7 months of 1949, together with new construction, has so increased consumption of water that additional capacity is necessary to our Pumping Station and Filtration Plant. The 461 new services put in during 1949 is 50% greater than the previous year, which together with drought conditions has increased our consumption 12% as against the average yearly increase of 5% over the past 3 years. This has left our storage in Great Pond supply lower than it has been for many years. While our Pond usually fills each spring season, there is considerable doubt of its doing so this coming season. dependent of course, on the amount of rainfall. Considering this increase in consumption and deficiency of water storage, the Water Board has retained our engineers, Weston and Sampson, to consider increasing the capacity of the Pumping Station thru a bond issue of $25,000, and also to seek emergency additions to our supply.

We have continued our program of reinforcement to the distribution system by construction of a new 500,000 gallon standpipe off Randall Avenue, a 16 inch feeder main from standpipe to Broad Street, and completed a section of the 12 inch main from Broad Street to Commercial Street via Philomena and Madison Streets.

Respectfully submitted,
WEYMOUTH BOARD OF WATER COMMISSIONERS
Stanley T. Torrey, Chairman
Harry I. Granger, Clerk
Clarence W. Taylor
John E. Horace

REPORT OF THE SUPERINTENDENT

To the Weymouth Board of Water Commissioners:

A review of the year 1949 shows an unusual amount of new construction, including 461 new services, construction of a new standpipe, and the laying of some 21,600 feet of new mains. This construction, together with repairs of usual leaks, layout and repairs due to sewer and road construction, together with capacity consumption of water during the exrtemely dry summer, has confined the Department activities to necessary imme diate work rather than laying larger mains as planned for reinforcing the system. Department contracts were completed, however, on a 16-inch line from Broad Street to the Randall Avenue Standpipe, and also a 12-inch line on Philomena and Madison Streets.

During the Fall, the Department took advantage of the low level of the Pond to excavate a larger intake channel, and to also clean out the wash water basin.

Operation of the emergency well supply at Circuit Avenue was increased this year to a total of 73 million gallons or approximately 10½ percent of the total consumption.

During the year, we have added a new Ford 1½ Ton Truck, a new compressor, a service pipe jack, a service pipe cleaner, and a new keyboard graphotype machine for the office.

Daily tests of samples taken throughout the town continue to prove our drinking water free from any harmful bacteria.

As a result of the heavy drought and of heavy consumption this past year, it is recommended that additional water supply be made available, and that facilities at the Pumping Station be improved to take care of peak loads. With the large amount of trenching done, it is also recommended that consideration be given to the purchase of a power digger.

Miss Eleanor McKenzie has joined our office force as a junior clerk and stenographer.

Your Superintendent wishes to express his appreciation of the constant support of the Water Commissioners during an extremely difficult year, and to also thank the many other Town Departments for their cooperation.

The following tables give statistics of the year's activities.

Respectfully submitted,
SYDNEY C. BEANE, Superintendent

Treasurer Water Department

Weymouth, Mass.
January 25, 1950

I have examined the Treasurer's and Collector's accounts in the Weymouth Water Department and believe them to be correct. Regular examination of all transactions with a monthly verification of cash with the official statement of the Granite Trust Company satisfies me that the Treasurer has properly accounted for all funds intrusted to him.

Respectfully submitted,
Emerson R. Dizer, Town Accountant

MEMORIAL DAY COMMITTEE REPORT FOR THE YEAR 1949

Members: Chairman, Edward Swain. Cdr. Roger Grande Post, No. 58 Amvets, and Chief Marshal; A. Robert Panora, Cdr. Weymouth Post No. 79, American Legion; John Reins, Cdr. Greater Weymouth Post No. 394, American Legion; Mrs. Mary Condon, South Shore All Women Post No. 393, American Legion; Charles Delory, Cdr. G. R. Bean Post No. 401, American Legion; John Connolly, Cdr. V. F. W. No. 1399; William Trask, Jr., Cdr. John D. Martin Post V. F W. No. 9260; John F. Mulloy, Cdr. Erwin Davis Post No. 9396, V. F. W.; John Gallian, Cdr. Ralph Talbot Chapter, No. 65, D.A.V.; Gerlermo Cavallo, Cdr. Lt. Am. Vet. World War II, Post 15; Mrs. Harriet C. Fern, Pres. Dorothy L. Dix Tent, No. 32, Daughters of Union Veterans; Ernest Smith, Past Cdr. of James L. Bates Camp No. 36, Sons of Union Veterans.

First meeting held April 28 at the Town Hall at 8 p.m.

It was voted that the chairman would be the Chief Marshal, and Mary Condon of the All Women Post, American Legion would be Secretary.

The Committee was informed that the sum of $1,500.00 was appropriated by the town for the Observance of Memorial Day. After figuring bills out we found that approximately $200.00 more was needed. A request was sent to the Selectmen, and this was granted.

Two more Committee Meetings were held and at the second meeting the question of visiting the Cemeteries in the town was discussed, and the exercises to be held at the St. Francis Xavier Cemetery.

The program was as follows: Assembly at the corner of Neck and North Streets at 7:30; paraded to Caldwell Square where a wreath was placed by Cdr. Rein of the North Weymouth A. L. Post No. 394.

From there to the Old North Cemetery for Memorial Exercises at the Grand Army Memorial Monument, where a wreath was placed by Lt. Wm. Seach, Congressional Medal of Honor winner and Ernest Smith, Past Cdr. of the James L. Bates Camp No. 36, Sons of Union Veterans, and a salute was fired by the Roger Grande Post No. 58 Amvets Firing Squad. Thence the parade proceeded to corner of Church and North, where members of the parade entered busses and rode to the Village Cemetery. After exercises, we proceeded in the same manner to the St. Francis Xavier, where Memorial Day Ceremonies were conducted with the program as follows:

1. Trooping to the colors.

2. Prayer by Rev. Father O'Brien.

3. Salute to colors.

4. Selection by the band (America).

5. Reading of General Logan's "General Orders" for the observance of Memorial Day by Harriet C. Fern, President, Daughter of Union Veterans.

6. Band Selections — Civil War Airs.

7. Lincoln's "Gettysburg Address" by Mrs. May Blanchard, Past Dept. President of Daughters of Union Veterans.

8. Veterans disperse to cover the graves.

9. Hymn — by the band.

10. Salute to the dead by the Amvets Firing Squad.

11. Taps.

12. National Anthem by Ventus band and the High School band.

13. Veterans re-formed at re-acll and left cemetery via Washington Street where they again boarded the busses and proceeded to the next cemetery which was Lake View. After leaving Lake View all units were drawn up at Newbert, South Weymouth for the Memorial Day parade and marched into the Highland Cemetery. Conducted exercises and marched out onto Main Street to Independence Square, then up to Columbia Square where members of the George R. Bean Post, A. L., No. 401 paid tribute to the memory of the South Weymouth war dead.

From Columbia Square to the Elmwood Cemetery on Union Street, South Weymouth to Mount Hope Cemetery on Pine Street, South Weymouth to Pleasant Street, East Weymouth where all units were drawn up in front of the Chief of Police Butler's house, and then marched to Direck Street (formerly Canterbury Street), where a wreath was placed on the Memorial Marker by Lt. Wm. Seach, Congressional Medal of Honor winner in honor of Comrade Direck, and then the parade marched to Fairmount Cemetery. After conducting exercises there, we marched to Jackson Square, East Weymouth, where parade was then disbanded.

The Memorial Day Committee is most appreciative of the assistance of all those individuals and organizations who took part in or otherwise co-operated in the observance of Memorial Day this past year.

EDWARD SWAIN, Chairman
(Mrs.) MARY CONDON. Secretary

REPORT OF THE TOWN ACCOUNTANT

East Weymouth, Mass.
February 3, 1950

To the Honorable Board of Selectmen
Weymouth, Massachusetts

Gentlemen:

Herewith is submitted the forty-eighth annual report of the Accounting Department.

The accounts of the officials charged with the expenditure of public funds have been examined with regularity, and the accountants from the Division of Accounts of the Department of Corporations and Taxation made an audit as of December 1, 1949. Evidence is substantial that the finances of the town are in excellent condition. A perusal of the balance sheet verifies this fact and the town should find it possible to provide adequate service for its inhabitants without burdensome taxation.

It would be most gratifying if the taxpayer would take more interest in the financial affairs of our town. The accounting personnel is available for dispensing information relative to municipal finance to any who care to visit the office.

Respectfully submitted,
EMERSON R. DIZER, Town Accountant
